

Tritax – where progress lives

We help businesses succeed by enabling sustainable and resilient supply chains

We invest in and manage critical supply chain real assets in the UK and Europe. These assets are aligned with the structural trends shaping the future economy. Deep sector specialism and strong relationships mean we can spot opportunities first and move quickly to create value for all our stakeholders.

Our specialist focus and 25+ year track record enable us to identify some of the most attractive investment opportunities; while our entrepreneurial spirit and strong governance mean we can move fast and confidently to act on them. We are backed by global asset manager abrdn.

Designed to deliver superior performance

We aim to create long-term value by investing in a carefully curated, high-quality portfolio of sustainable supply chain real assets that outperform their sector. We invest in every step of the supply chain – from first-mile big boxes through to last-mile urban logistics – and in the supporting infrastructure.

Our publicly listed funds include Tritax Big Box REIT plc and Tritax EuroBox plc. These FTSE funds acquire, manage, and develop mid- to large-scale logistics assets in the UK and mainland Europe, respectively.

We also offer a suite of private market products, including unit trusts and segregated mandates for global institutional and private equity investors, such as state pension funds and sovereign wealth funds.

Responsible custodians of capital

Robust ESG performance is important to who we are and what we do; it is embedded in every aspect of our approach. Being responsible with rigorous ESG means we can make informed decisions that minimise our impact and support our aims to drive social, environmental and economic value for our customers, partners, investors and wider society.

Our ambitious ESG strategy is measured against meaningful targets across four key priorities where we believe we can make the greatest difference:

- 
1. Sustainable buildings
 To ensure and demonstrate that our ESG strategy and performance criteria fundamentally underpin the investment philosophy of the Company
- 
2. Climate and carbon
 To ensure that our portfolio and our assets are net zero carbon
- 
3. Nature and wellbeing
 To ensure that our portfolio has a positive impact on our climate and the natural world
- 
4. Social value
 To ensure that the social value which our portfolio delivers makes a meaningful difference to people and communities across all our geographies

Set apart by a differentiated approach

HIGH CONVICTION

With our specialist focus and long track record in supply chain real assets, we make high-conviction decisions founded on proprietary data-driven insights.

DYNAMIC AND ENTREPRENEURIAL

Our entrepreneurial culture and institutional rigour mean we can spot opportunities first and capitalise on them quickly within a robust governance framework.

RELATIONSHIP DRIVEN

We take a personal, hands-on approach with all our stakeholders and believe lasting partnerships are key to long-term outperformance.

RESPONSIBLE

We integrate rigorous ESG analysis into every decision and collaborate with our stakeholders to deliver real assets that create long-term value for customers, investors and communities.
